OUR COMPANY IN BRIEF

Professional Engineering Plus Co.,Ltd. is a legal construction company which has been established for a number of years. We have been providing our clients with the reliable solutions to their most complex construction situation. Today we are recognized as one of the leading companies in the Construction Industry, Electrical Transmission Lines, and results in professional achievement with our high responsibilities and confidence. Our expertise covers from the construction industry spectrum and Electrical Transmission Line, from smaller renovations to multi-million-dollar projects. Professional Engineering Plus complies with the requirements of clients on standard construction procedures for both local & international constructors. Most of our construction activities, work experiences, and personal workmanship include construction of building, renovation, demolition, water supply and installation, electrical poles and tower installation, electrical cable stringing canal excavation, road and bridge construction,... etc. Our company accepts all kinds of projects related to civil construction and electrical engineering across Cambodia.
